

*Water test bench  
(Test chamber and drive unit)*

*Water test bench (close-up)*

## Description:

- Endurance test bench with three test chambers
- Specially designed for aggressive fluids
- Direct drive for fast speed changes
- Operation with fluid sump or spraying possible

## Technical Specifications:

Spindle speed:	max. 6.000	1/min
Sump temperature:	20 ... 180	°C
Shaft diameter:	up to 150	mm
Pressurization:	up to 6	bar

## Field of Application:

- Endurance test
- Hydraulic conveyance measurements
